Terms & Conditions

Important

All racking systems are supplied flat packed for assembly on site. Weights and loadings are based on **UDL** (uniformly distributed loads).

If the height to depth ratio is more that 4:1 then the racking should be secured to the floor or wall.

Prices

All quoted prices are exclusive of VAT at the prevailing rate and are subject to change. Errors and omissions excepted (E&OE).

Delivery

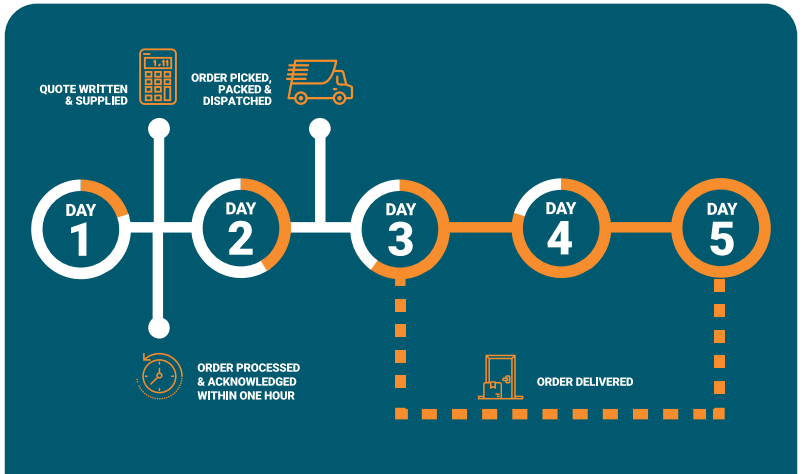

All prices are inclusive of delivery to the areas indicated in the schedule below. All orders under **£200** are subject to a **£10 small order charge**. Goods shall be delivered within 5 days from payment, if available from stock.

Delivery will be to a ground floor location and heavy items may require fork lift unloading and/or assistance on site.

Delivery is to a business address **Monday to Friday 8.30am to 5.00pm**. Restricted delivery areas or residential addresses may incur a surcharge.

Delivery Zones		
Area	**5 Day**	**Next Day**

Heavy Duty Medium Duty Light Duty **See product specific page for more info* *Suitability shown is a suggestion only, the use of the products is not limited by the applications specificed in this table.*

How to find the best storage solution

The storage environment.

We have tried to make selecting the right system storage system simple and easy. With clear and intuitive icons on each page, it's easy to make a quick selection. Need more information? No problem. Highly detailed technical information is available for each product.

Our application icons quickly and simply indicate the environment the system is most suitable for. Application can range from the office to retail to the warehouse. Most of our products are suitable for multiple environments - this is illustrated by the icons shown below.

Please note the usage indicated is only a suggestion and doesn't limit the use of the product in different environments

Find your solutions.

In addition to our key application and loading icons, we illustrate further information using the icons shown below. You will find these icons at the start of each major product section.

The icons below illustrate dimensions (Height, Width, Depth), application, construction as well as more detailed loading information. The information you'll find below each of these icons act as a summary for the product section that follows, saving you time when you're finding the perfect storage solution.

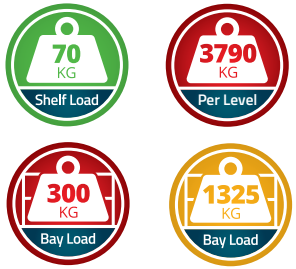

From left to right these icons illustrate - height, width, depth, application, construction and loading

What exactly do you need to store?

For most workplaces there is generally a wide variety of products that come in a wide range of sizes and loading capacities. It is important to have a clear specification of the weight and dimensions of the goods, this will give a clear understanding as to the type of shelving required.

From this information you will be able to establish the shelf and total bay capacity needed, the overall size of the shelf required to store the various items.

Note

Capacities stated on the icons are based on maximum uniformly distributed loads (UDL).. The total bay load is dependent on several factors such as shelf pitch (distance between levels), height of the first shelf & actual size of the shelves.

Guarantee

All of our products come with a guarantee. You will find the relevant guarantee detailed on the first page of each product section.

Assembly Time

Assembly time is now noted on all shelving. This can range from 5 – 20 minutes, based on two competent people building a single bay.

Additional Features

Our product range is vast and extremely diverse, as a result each product has its own features and benefits. Our icons visualise some key features.

The meaning of the colours:

Light Duty Medium Duty Heavy Duty

These small target icons appear under some images, in pricelists and support graphics. They link the pictured product with its actual size in the pricelist.

KWIKRACK

Our new Kwikrack offers a robust and cost effective storage solution for any application. The unique 6 fold channel beam offers shelf capacities of 300kgs with a shelf height of only 54mm. The design of the beam allows for an inset chipboard decking design with interlocking deck supports for a strong and robust shelf level.

The system is simple to erect, yet has all the strength you are likely to need. The bays just tap together with a rubber mallet so you can organise your storage in a fraction of the time it can take with more traditional systems. With a build time of just 10 minutes, large installations will be completed in no time at all.

- **Easy to assemble and re-configure**
  Build a bay in 10 minutes with a rubber mallet
- **Will suit any application**
  A versatile range, ideal for home, garage or industry
- **Best value shelving system**
  With shelf capacities of 300kgs at great prices

RIVET RACKING

Offers incredible value for money, whilst offering amazing strength and rigidity.

The system is simple to build with all parts being tapped together using a rubber mallet. All components are joined via the heavy duty rivet and key hole slot which offers a simple and effective way to assemble the racking.

There are no nuts and bolts and the bays require no bracing therefore offering uninterrupted access on all four sides. Bays are available in various heights up to 3660mm high.

With the average time to assemble a bay being just 5 minutes, you will be amazed at how easy it is to create large installations in no time at all. All bays are ready for immediate dispatch and will be delivered in 5 working days.

- **Best Selling system**
  Offers the widest choice of sizes, all at great value
- **Easy to build and re-configure**
  Simply tap together with a rubber mallet
- **Strong and sturdy**
  With shelf capacities up to 600kgs, it easily copes with heavy goods
- **No nuts, bolts or screws**
  Simple and quick to erect, with no fuss
- **Strong epoxy paint finish**
  Designed to give years of service and withstand heavy use
- **Will suit any application**
  Versatile and expandable, suits a wide range of industries
- **Guaranteed delivery in 5 days**
  There when you need it, without fail

Heavy & Medium Rivet

Incredible value for money, amazing strength and rigidity.
Bays come complete with 3 or more levels and have a central deck support on bays 1220mm to 2135mm wide, whilst 2440mm wide bays have two per level.

J Rivet

Our J rivet system has unbeatable strength at an incredible price.
It is also manufactured to the highest quality.
The shallow J beam profile (only 30mm thick) gives increased storage capacity whilst maintaining excellent strength.

***** *Dimensions used in price tables*

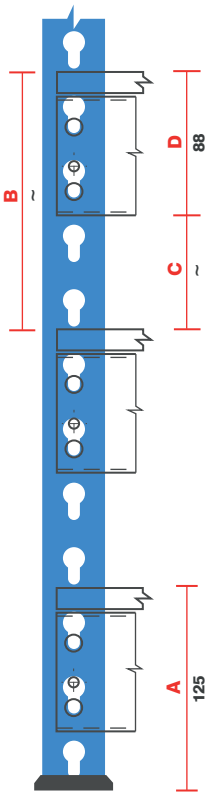

Rivet Racking Bay Loading (kgs)

Rivet Upright

	J Rivet	Heavy Rivet
A	98mm	125mm
B	see below ⓘ how to calculate exact Shelf Pitch	
C	B minus D	B minus D
D	30mm	88mm

A Minimum First Shelf Level Height
B Shelf Pitch - Distance between levels
C Clear Entry - Useable space between shelf levels
D Shelf Thickness - Beam and chipboard

ⓘ How can you calculate exact Shelf Pitch (B)

Height of item stored + Shelf Thickness divided by **38.1**
= Round decimal up to the next whole number and multiply by **38.1**

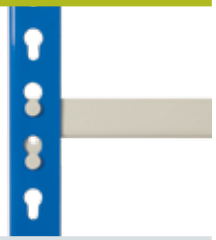

e.g. 320mm(Height of stored items) **+ 88mm**(Heavy Rivet) **/ 38.1**
= **10.7** rounded to **11** **x 38.1** = **419.1mm Shelf Pitch**

We have multiple solutions to different storage problems, if you are unsure what's best for you, please contact us.

Rivet Racking accessories and components

1. J Rivet Beam

Decking is flush with the top of the beam

2. Notched Side Beam

Used with tubes to create rails

3. Rivet Upright

Uprights can be up to 3660mm high

4. Tie Plate

Connects two bays together

5. Plastic Feet

Comes as a standard with every bay

6. Metal Foot

Allows the bay to be floor fixed

7. Heavy Rivet Beam

Decking sits on top of the beam

8. Tray Shelf

Reversed medium rivet 'L' beams

11. Deck Support

Adds strength to shelf levels

10. Wall Bracket

Allows the bay to be wall fixed

9. Chipboard Deck

Rivet Racking uses 15mm and 16mm decks

If you'd like the Heavy Rivet in blue/orange, use code 'BO' when placing the order.

HEAVY RIVET

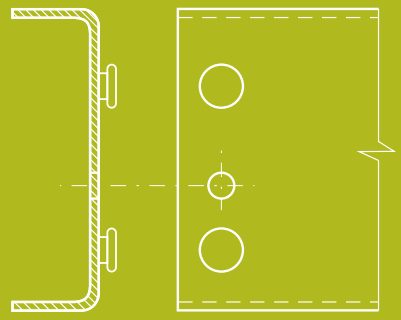

Heavy duty industrial racking that meets the demands of any warehouse, storeroom and workshop.

Rivet Racking offers incredible value for money with amazing strength and rigidity. The quality of the materials used and robust construction ensures it will meet the rigors of the toughest workplace.

The vast range of bay sizes allows for a solution to meet your storage needs and the available space. Flexibility of wide open bays and large shelf capacities enable products of varying weights and dimensions to be easily stored within a single system.

Heavy Rivet beam profile 915, 1220 & 1525 wide

Heavy Rivet beam profile 1830, 2135 & 2440 wide

Wide open bays with heavy duty shelves

J Rivet increases storage density with its 30mm slim beam profile.

J RIVET

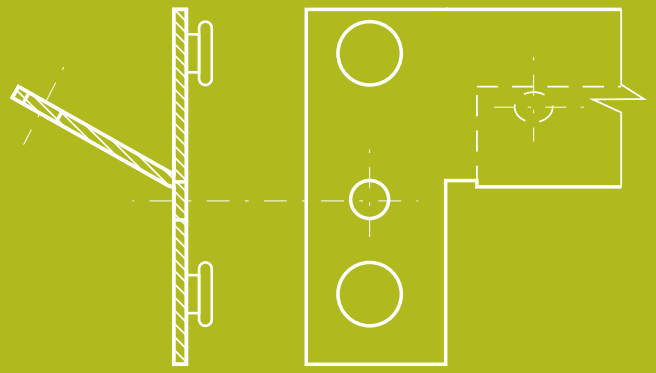

Fully flexible, low cost shelving system

Our J Rivet system offers unbeatable strength at an incredible price, manufactured to the high quality you have come to expect from one of the UK's leading suppliers.

The shallow J beam profile provides increased storage capacity whilst maintaining excellent strength. To maximise flexibility, our J Rivet range is compatible with our incredible Heavy Rivet range.

The system is simple to erect yet has all the strength you are likely to need with a bay load of up to 2800kg. The bays simply tap together with a rubber mallet so you can organize your storage in a fraction of the time it can take with more traditional systems.

With the average time to assemble a bay being just 5 minutes, you will be amazed at how easy it is to create large installations.

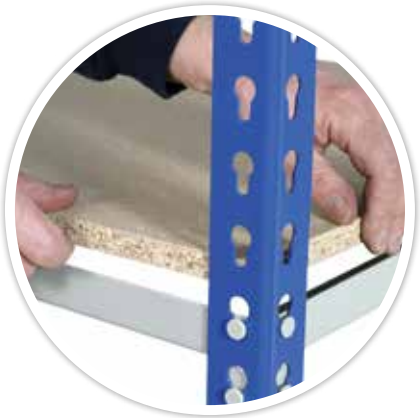

J Rivet beam profile

Strong, sturdy and simple to build

RIVET DIVIDER SYSTEM

Our Rivet Divider System provides an effective way to store loose or awkward items. The bays provide multiple locations for separating individual products.

The system uses our Heavy Rivet Racking solution with bespoke shelves, dividers and cladding. This creates a cost effective divider system with strength and easy installation. As well as standard bays we can offer bespoke designs.

ⓘ All bays are supplied with four levels, uprights, plastic feet, perimeter beams, deck supports, chipboard decking, dividers, brackets and fixings. Dividers are supplied with brackets. Side cladding is constructed from 16mm Chipboard and is supplied with all required fixings and washers. (Some drilling and fixing required). Available in blue/grey and blue/orange.

Remember, if your shelving height to depth ratio is greater than 4:1, the bay should be fixed to the floor or to the wall.

HEAVY RIVET MFC

The Heavy Rivet MFC offers the same incredible rigidity of the standard model combined with clean, wipe down melamine shelving.

Heavy Rivet MFC offers incredible shelf loading capacities of up to 500kg. The hard wearing edged White MFC shelving finish offers additional resilience and is extremely easy to maintain.

Heavy Rivet beam profile 1830, 2135 & 2440 wide

ⓘ Heavy Rivet MFC Bays come with four White melamine shelf levels as standard. Bay price also includes uprights, plastic feet, face and side beams.

Bay Colour Options

For **Blue Uprights with Orange Shelves** add **/BO** to the end of your chosen price code.

For **Blue Uprights with Grey Shelves** add **/BG** to the end of your chosen price code.

Rivet Racking MFC uses a central deck support which not only supports the melamine panel but ties the front and back beams together.

Shelf Bins & Additional Dividers

If you need a strong, robust and versatile bin storage solution, at a competitive price – then look no further.

Our new range of Shelf Bins have been designed to offer a range of bins in "Big Sizes" for storing large parts or increased volumes. They can fit both small parts shelving systems as well as larger bays, such as Rivet or Longspan.

They have many new features, such as internal dividers that securely locate into 7 different locations. There is also an integral back stop allowing the bin to be suspended out from the shelving, for ease of picking.

With a semi-open front and a large labelling area below, ensures items can be identified quickly. The bins are available in Blue shockproof plastic and can be nested when not in use to save space.

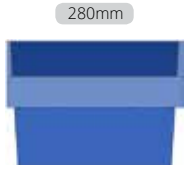

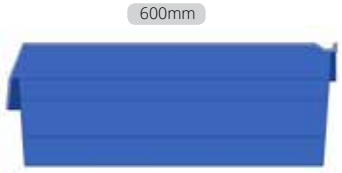

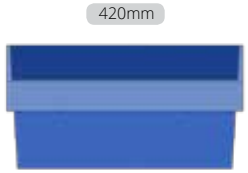

Shelf Bins			
D x W x H(mm)	**Code**	**Colour**	**Price**

Keep cable reels organised

A new solution for organising and dispensing cable and items stored in reels.

The simple side beam supports a 25mm diameter tube which can hold a variety of drums or reels. The beam is notched so the tubes can be placed in 5 different positions. Each level is then fitted with a face beam to enable the material to be passed to the user and conveniently cut to length.

The units come as either static racks or as a low level mobile trolley. Bays are available in either 915 or 1220mm wide and 610mm deep.

Cable Reel Trolley 915 x 915 x 610 mm

Braked castors for additional safety

5 different positions for the tube

Cable Reel Rack 1830 x 915 x 610 mm

RIVET GARMENT RACKS

The perfect storage solution for any bulk garment hanging requirement. All constructed from Rivet racking components for simplicity and ease of assembly.

The 25mm zinc coated tube slots into place on the notched beams and can be located in five different positions. This can provide a single rail centrally positioned or two rails located on each face of the rack providing twice the capacity. Each storage level can be adjusted every 38mm.

Two single rail garment bays connected with tie plates

5 YEAR Guarantee | 5 DAYS Delivery | 10 MINS Assembly | Boltless

ARCHIVE STORAGE SOLUTIONS

Our Rivet Archive range is the perfect solution for high density paper storage and archiving.

Our range of Archive Storage Solutions is formed of our Heavy Rivet range combined with high quality Heavy Duty Archive boxes. Each individual box offers a loading capacity of up to 20kg, with shelves supporting a UDL of up to 500kg.

Rivet Archive is available in two depths, three heights and two widths and is perfect for the storeroom, workshop or warehouse.

Need More Boxes?

Our Heavy Duty Archive box and lid are designed to hold 20kgs of paper. The robust construction means documents will be securely and safely stored. The boxes come flat packed and are easy to assemble. Boxes come with handle holes for easy transportation and the internal dimensions are 250H x 330W x 390D.

Planning the storage layout for **EXPO Shelving**

Calculating Exact Dimensions of the Bay & Run of Bays (all dimensions in mm)

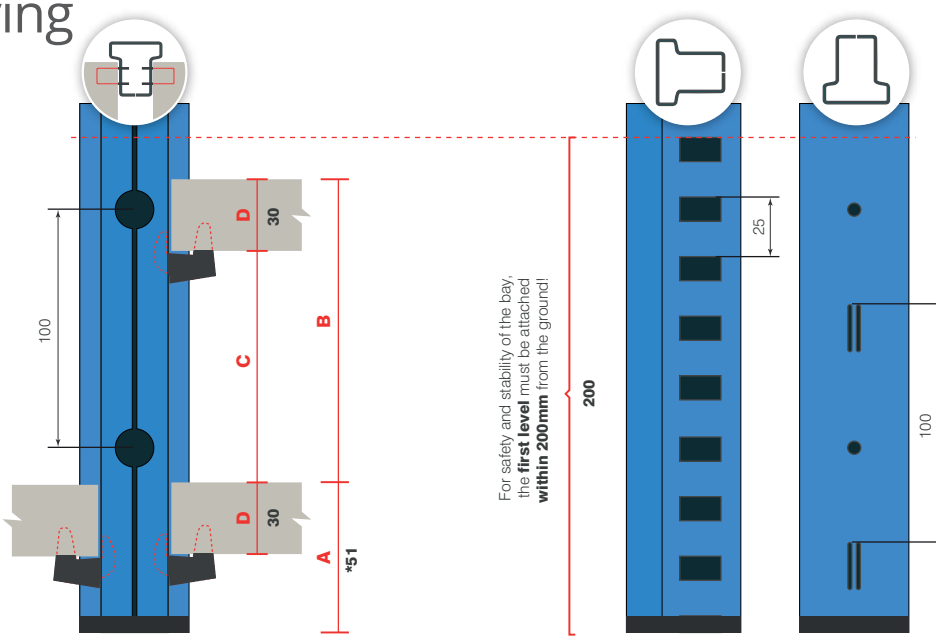

Nominal Height*	**H**	Clear Entry	**CE** CE=W-30mm
Nominal Width*	**W**	Total Width - Starter Bay	**TWST** TWST=W+42mm
Nominal Depth*	**D**	Total Width - Extension Bay	**TWEX** TWEX=W+6mm
(D - Actual depth of the shelf)		Center Width	**CW** CW=W+6mm
		Total Depth	**TD** TD=D+20mm

***** *Dimensions used in price tables*

A Minimum First Shelf Level Height (clip in 1st hole)
B Shelf Pitch - Distance between levels
C Clear Entry - Useable space between shelf levels
D Shelf Thickness (30mm)

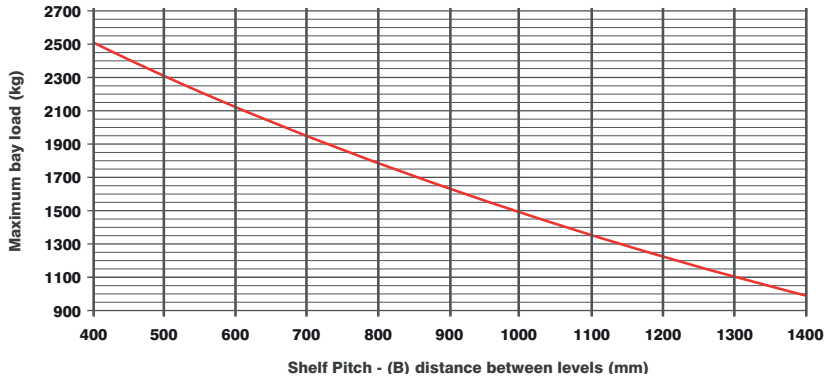

***If using metal feet and/or a plinth, the minimum shelf level height is 76mm as the shelf clip is attached in the 2nd hole

How to calculate exact Shelf Pitch (B)

Height of item stored + Shelf Thickness divided by 25
= Round decimal up to the next whole number and multiply by 25

Example: 357mm(Height of stored items) **+ 30mm** (Shelf Thickness) **/ 25**
= 15.48 rounded up to **16 x 25** = **400mm Shelf Pitch**

Expo Shelving Bay Loading (kgs)

Easily specify and plan your layout.

EXPO.....one upright with four interchangable shelf styles

EXPO 4 FULL DETAILS TURN TO **PAGE 51**

The original shelf design, that comes with a wide range of sizes and capacities, all in a hard wearing light grey (RAL7038) epoxy powder coated finish.

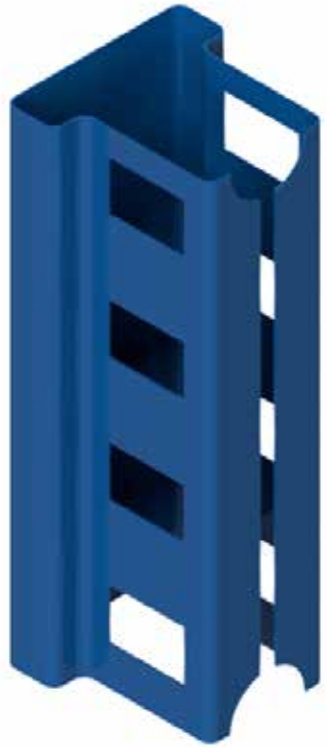

EXPO 4G FULL DETAILS TURN TO **PAGE 50**

The latest addition to the range which offers a competitive, hard wearing galvanised finish, with shelf capacities up to 200kgs.

300 KG Shelf Load

2500 KG Bay Load

Office

Workshop

EXPO 4D FULL DETAILS TURN TO **PAGE 54**

A slotted shelf design, that allows a range of dividers to be integrated into the shelf, which can form compartments within the bay. All in a pure white (RAL9010) epoxy powder coated finish.

EXPO 3 FULL DETAILS TURN TO **PAGE 56**

The "EXTRA" Heavy duty shelf, with shelf capacities up to 300kgs and shelf sizes from 1500mm wide and 1000mm deep. All in a hard wearing galvanised finish.

Choose your bay size and height plus the exact number of shelves for your layout.

ⓘ We have multiple solutions to different storage problems, if you are unsure what's best for you, please contact us.

EXPO 4D

Expo 4D integrates the Delta Plus shelf within the standard Expo uprights (Blue RAL5010). These shelves are finished in a pure white (RAL9010).

The shelves come slotted, this allows the use of a range of dividers to create compartments along the shelf, which are available in two widths and four depths.

Bays are supplied with six slotted shelves and are all easily adjustable on clips at a 25mm pitch. All you need to do is select the accessories you need to create any bay configurations that meets your requirements.

5 YEAR Guarantee | 5 DAYS Delivery | Multi-Tier

EXPO 3

Galvanised Boltless shelving.

EXPO 3 uses the same upright as our EXPO 4 shelving system, but has the unique shelf design which can have capacities up to 300kgs UDL. The design is based on a pair of shelf carriers and the combination of 100mm or 200mm panels to make up the required depth.

- **Hard wearing galvanised finish**
  Tough and bright finish that will last the rigours of any environment
- **Simple to build**
  Build bays quickly to get your storage problems sorted fast
- **Will suit any application**
  Versatile and expandable and suits a wide range of industries
- **Interchangeable with EXPO 4 system**
  Mix and match accessories and components with our EXPO 4 systems
- **Wide choice of sizes**
  Flexibility to suit all your storage needs within one product

EXPO 3 galvanised boltless shelving
Fully interchangeable with EXPO 4 system

EXPO 3 single shelf carrier (used for top shelf)

EXPO 3 double shelf carriers

ⓘ The pre-galvanised steel offers a hardwearing finish suitable for most environments.

DELTA PLUS STEEL SHELVING

Delta Plus is our versatile steel shelving system and is the evolution of our popular Delta Edge range. Ideal for the office, library, workshop or warehouse, Delta Plus is the ultimate all-rounder.

Developed in-house in the UK, Delta Plus features an aesthetically attractive yet conveniently simple design. The system is brilliantly adaptable with a choice of plain or slotted shelves adjustable every 25mm. The system boasts a vast range of dividers and accessories making Delta Plus perfect for any brief.

Hidden shelf clips and wide open bays maximise the space available to store items. Accessories and dividers allow additional scope to organise items neatly, reducing time and stress.

- **True delta edge profile**
- **Slotted shelves or solid shelves available**
- **120kg (UDL) Shelf loading**
- **Huge range of dividers and accessories**
- **Shelf pitch every 25mm with indicators every 100mm**
- **Hidden shelf clips for maximised storage space**
- **Attractive Pure White (RAL9010) finish**
- **Designed in-house in the United Kingdom**

MIDISPAN RACKING

Midispan is our longspan shelving system with steel decking panels supplied in a contemporary pre-galvanised finish.

This makes it ideal for the most demanding applications and environments. The profiles are designed in such a way to ensure there are no sharp edges when assembling or in use.

The system has a wide range of profiles and sizes which provides complete flexibility when designing your warehouse. Along with a range of accessories that make it simple to store many different products as well as bespoke solutions for the automotive industry.

We offer guaranteed delivery within 5 days, including components to build a high bay or multi-tier installation from our large stocks.

- **Heavy duty and secure**
- **Easy to build and reconfigure**
- **Beams adjust every 25mm**
- **Guaranteed delivery in 5 days**
- **Available in blue or galvanised uprights**
- **Galvanised beams and decking panels**

TS LONGSPAN RACKING

If you need a strong, robust and versatile solution, at a competitive price – then look no further.

The unique fit between the upright and claw gives our longspan racking incredible strength and rigidity. Along with our heavy duty "Z profile" beam which ensures it will meet the most rigorous demands.

All levels come with heavy duty deck supports as standard, this ensures the chipboard shelves carry the same load as the beams. The unique deck support slots into the beam which also eliminates the beams spreading or rotating.

- **Heavy duty Racking system**
  Store all your heavy and bulk items with ease
- **Adaptable storage solutions**
  Simple to add to, as your storage needs grow
- **Strong "Z" profile beam design**
  Unique beam design that offers capacities up to 1200kgs
- **Heavy duty shelf levels**
  Shelf levels includes deck supports to match beam capacities
- **Guaranteed delivery in 5 days**
  Get your stores organised quickly with no hassle

Extremely strong, heavy duty system that's easy to build

Shelf Bins & Additional Dividers

If you need a strong, robust and versatile bin storage solution, at a competitive price – then look no further.

Our new range of Shelf Bins have been designed to offer a range of bins in "Big Sizes" for storing large parts or increased volumes. They can fit both small parts shelving systems as well as larger bays, such as Rivet or Longspan.

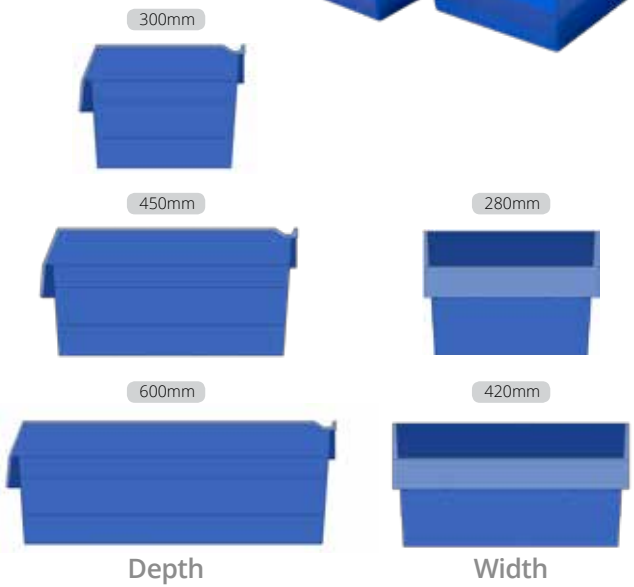

They have many new features, such as internal dividers that securely locate into 7 different locations. There is also an integral back stop allowing the bin to be suspended out from the shelving, for ease of picking.

With a semi-open fronted and a large labelling area below, ensures items can be identified quickly. The bins are available in Blue shockproof plastic and can be nested when not in use to save space.

Shelf Bins

CANTILEVER RACK

Our cantilever system is based on modular bays and fittings to provide cost effective storage of long and awkward items.

The frames are available in three heights and three depths in both single and double sided configurations. Each bay comes complete with three arms per frame and you can add or deduct the number of levels required.

The arms can be fitted with end stops (at an additional cost shown) to secure any loose products from falling off. The frames are spaced 1000mm or 1500mm apart with bolted on X brace, so you can easily work out your run using the starter and extension bay.

- **Incredible value for money**
- **Easy to build and reconfigure**
- **Up to 2200kgs per side**
- **Arms adjust every 75mm**
- **Tough epoxy finish**

All bays are supplied with a base and column per frame plus bracing and all necessary fixings (Floor Fixings 'M12x100' available on request). Single frames include three arms, double frames include six arms. Arm end stops are not included as standard, but can be ordered.

If you don't see a solution that meets your requirements, contact us.

VERTICAL RACK

A cost effective way of storing all those long and awkward items.

Our vertical racking is derived from our Heavy Duty Midispan system. The system comes as a starter and extension bay format meaning long runs are more cost effective.

The bays come with 3 dividers, all necessary frames and base plates, two front beams and one back beam and base rail. Other size racks available to order, please contact the sales office.

- **Great value for money**
- **Store all your long awkward items**
- **Quickly gets your storage organized**
- **Simple to build and reconfigure**
- **Fully adjustable hoop dividers**
- **Starter and extension bay system**
- **Can be secured to the floor**

PALLET RACKING

We have a variety of pallet racking options that will provide the perfect storage solution for your business.

We take full consideration that each business needs to find a storage solution which makes the most of the available space.

We will evaluate the type of goods you store, the amount of floor space available for the racking installation, the speed of throughput and the type of equipment you use before recommending the best solution.

- **Adjustable pallet racking**
- **Push back pallet racking**
- **Pallet live racking**
- **External pallet racking**
- **Narrow aisle pallet racking**
- **Drive-In pallet racking**

UPRIGHT RACK PROTECTORS

Our moulded rack protectors offer a high visibility bumper, which suits many of the leading pallet racking systems.

Ideally suited for intermediate uprights with a slim profile that does not reduce the clear opening of the bay.

The unique design allows the impact to be absorbed within the protector whilst having the ability to reform after impact. Each guard is quickly installed onto the face of the upright with two cable ties (an additional cable tie is supplied for every protector for maintenance)

- **Cost effective pallet rack protector**
- **Tough impact resistant**
- **High visibility yellow**
- **Energy absorbing design**
- **Easily fitted and removed**
- **Certified to impact loads specified in EN15512-2009**
- **Made from polyethylene compounded plastic**

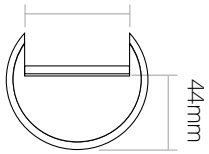

Heights	Widths	Depths	Application	Construction	Loadings

AVB = 79-92mm
AVC = 92-105mm

Turn to Page 166
for Rack Armour

- Absorbs the impact energy preventing damage to the upright
- Available in several widths to suit different manufacturers' uprights
- Protectors are 500mm high and can be stacked two high (1000mm)
- Simple attachment to the rack uprights with 2 cable ties
- Quick release cable tie for easier maintenance checks
- Narrow design without reducing the clear entry of the bay
- High visibility yellow colour enhances position of upright location
- Injection moulded from a high impact plastic compound
- Distributes the collision load to an internal energy absorbing pad
- Chemical resistant and suitable for use in temperatures down to -35°C
- Design Registration No. 335225 and No. 335226

HEAVY DUTY 'RHINO TUFF' PLASTIC BINS

With a lifetime guarantee, these plastic bins will perform in any environment time and time again.

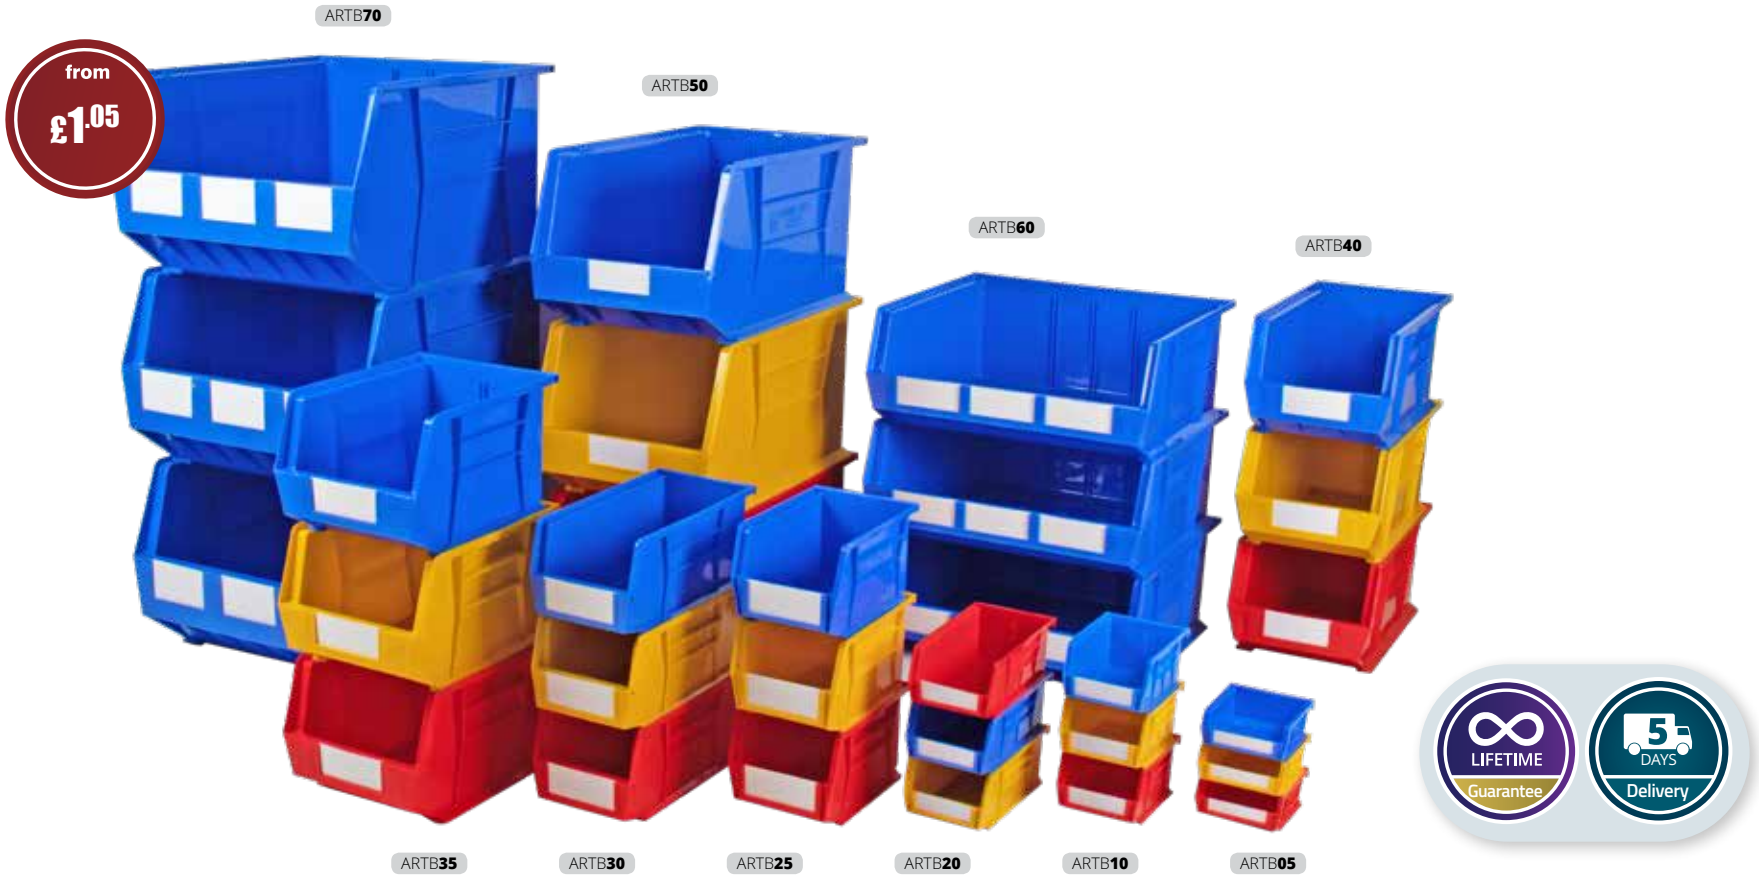

Their strong robust design and shock proof plastic make these bins ideal for heavy duty industrial applications. The quality and ergonomic design means all our plastic bins can be stacked securely or hung on louvre panels or rails making them efficient in any small part picking environment.

They have a large identification area as well as a large open picking face, meaning the contents are easily identified and picked. With 10 sizes to choose from plus a range of wall panels, racks, trolleys and shelving bays.

- **Small parts storage solution**
- **Made in tough shock proof plastic**
- **Lifetime guarantee**
- **Robust and ergonomic design**
- **Bins in 9 sizes, four colours**
- **Guaranteed delivery in 5 days**

Check out our fantastic range of shelving systems that are ideal for storing bins.

Efficient way to organise high density small part picking walls

LOUVRE RACKS

Our range of louvre racks provide an efficient way to organise small parts bins which include every size for our Rhino range.

The racks provide a simple way to organise small part storage bins, providing a high density storage solution whilst maintaining an efficient way to retrieve items from the picking face.

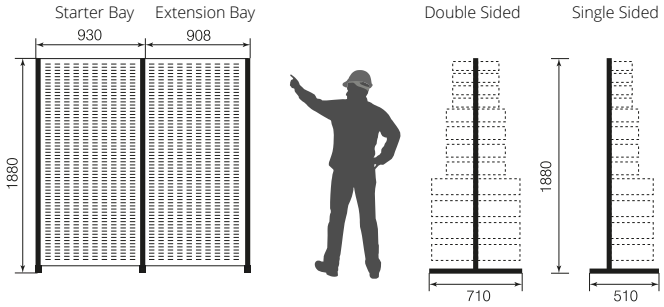

The frames are made from strong box section profiles finished in light grey RAL 7035 and the louvre panels from hard wearing galvanized steel.

Best mobile solution for small parts picking

Double sided louvre trolley

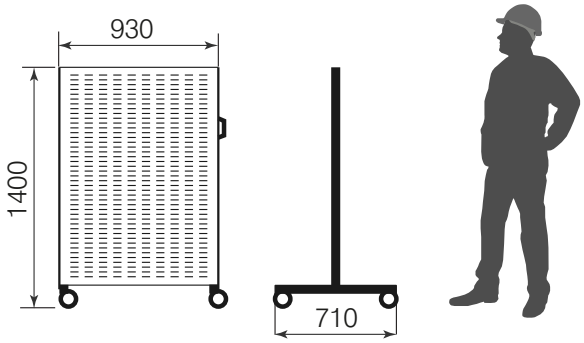

LOUVRE TROLLEYS

Save wasted time travelling to items stored in static shelving installations by putting all your small parts storage bins onto our Louvre Trolleys.

Each trolley has been designed to perform to the highest standards with a robust frame design and tough galvanised louvre panels. Each unit comes with an ergonomic plastic handle so the unit can be comfortably moved. The trolley is fitted with heavy duty swivel castors, that offer ease of movement. Two of the castors are braked, which means the trolley can be secured when not in use.

Component organisers on Louvre Rack

ACO-DS - 62 x 37 x 153 mm Drawers

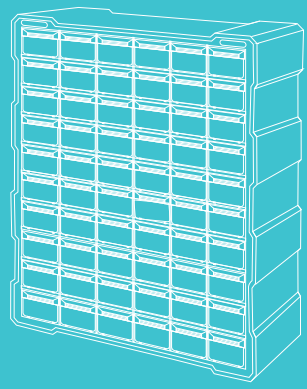

ACO-DB - 153 x 58 x 127mm Drawers

Compenent organisers on Rotary Stand

COMPONENT ORGANISERS

Component Organisers are the perfect small parts organiser for your item storage needs. The Body and frame are made from durable High-Impact Polypropylene and the drawers and Partitions aremade from transparent Polypropylene.

Each drawer comes with its own removable horizontal partition, effectively doubling the number of compartments which can be used in the component organiser.

The component organisers can be screwed directly on a wall with the pre-configured holes on the rear side of the cabinet or mounted on a wall using specially designed frames.

The component organisers can be mounted on metal louvre panels with the help of four clips for better mounting which can be fitted on the back wall of the cabinet.

RHINO TILT BINS

Tilt Bins are designed with meticulous care for storage applications where products need to be stored, viewed and retrieved quickly, whilst remaining free from dirt and dust.

It has been designed as a two-component binning system formed of a cabinet and tilting bin, which pivots at the front bottom edge of the bin. Bins are available in four heights, widths and depths.

- **Stack or interlock Tilt Bins side-by-side**
- **Use as a self-supporting structure, fix to a wall or Louvre panel using its specially designed adapter clip**
- **Large front handles with ergonomic grip**
- **Great for space saving and organising small parts**

ⓘ **Rhino Tilt Bins are built with robust, high-impact polystyrene, providing security to items inside**

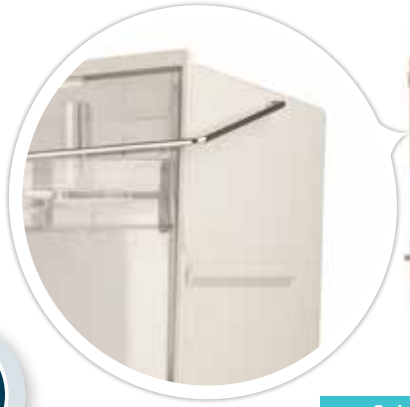

TILT BIN FRAMES & STANDS

Tilt Bins are designed to be wall mounted using the special wall mounting frame kit or be mounted on a self supporting, single or double sided stand.

Tilt bins with retaining bars are ideal in any situation where the tilt bins need to be secured such as Vans & mobile work areas but can also be unsecured quickly for easy access.

Retaining bar

How to affix Tilt Bins on Vertical Frames

1. Having removed the Tilt Bin, insert the screw corresponding to the screw holes in the Tilt Bin Cabinet.

2. Screw into the Fixing Plate on the back of the Tilt Bin Cabinet.

3. Interlock the cabinets by sliding front to back. Then insert the fixing plates into the vertical frame.

4. Once in place tighten the screws to affix the Tilt Bin cabinet to the vertical frame.

Tilt Bins with Retaining Bar ideal for Van Kits & Mobile Work Areas

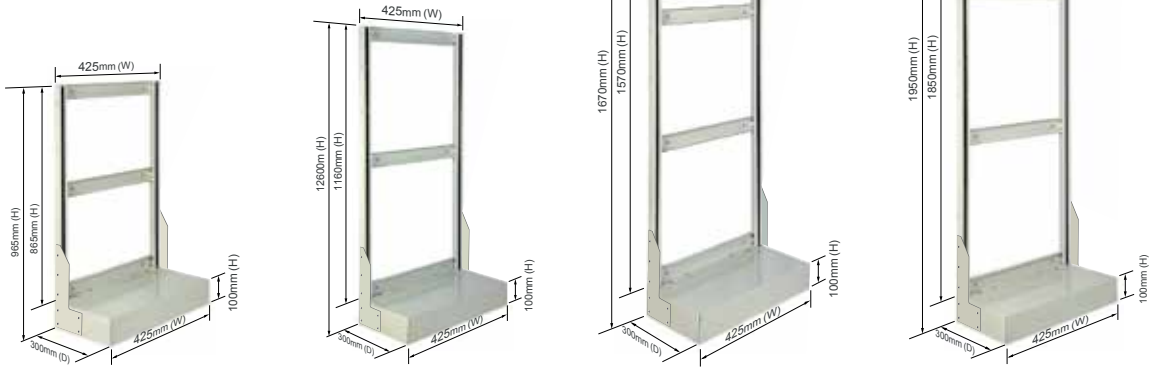

Code	Description	Qty & Bin Type	Price

SHELF TRAYS

Our range of shelf trays are designed for strength and ease to use at a competitive price.

Our shelf trays feature a spring loaded shelf stop at the back of the tray. This means the tray can be withdrawn from the shelf and suspended offering around 90% clear picking. This stop also acts as a handle to make it easier to carry.

With shelf trays available in 3 depths, 2 widths and 2 heights any configuration can be designed to offer the maximum high density storage solution. Trays can be sub divided from left to right and all trays and dividers come with labels.

- **Improved strength and rigidity**
- **More ergonomic features**
- **Sprung loaded shelf stop**
- **Can be sub divided**
- **High density storage system**
- **Offers fast retrieval times**
- **Large range of sizes**
- **Goods are kept clean**
- **Better product identification**
- **Uprights are Blue RAL5010**
- **Shelves are White RAL9010**

Perfect solution for production environments

KANBAN SHELVING

Rivet Racking Kanban is our solution for production line-side supply systems, where sloping shelves present containers for easy access and at the right height for operatives.

This can reduce costs and increase efficiency for manufacturing operations or inventory management. The two bin arrangement simplifies stock rotation and replenishment. When the front bin is removed the bin behind takes it place, leaving a space that is clearly identified for refilling on the next inspection.

Kanban Shelving with 3 Sloping Shelves

Description	H x W x D (mm)	Code	Price
Kanban shelving no bins	1830 x 915 x 610	RRKB03/MT	**£225.96**

Highly configurable divider system

Semi-open Fronted

SHELF BINS

If you need a strong, robust and versatile bin storage solution, at a competitive price – then look no further.

Our new range of Shelf Bins have been designed to offer a range of bins in "Big Sizes" for storing large parts or increased volumes. They can fit both small parts shelving systems as well as larger bays, such as Rivet or Longspan.

They have many new features, such as internal dividers that securely locate in up to 7 different locations. There is also an integral back stop allowing the bin to be suspended out from the shelving, for ease of picking.

With a semi-open front and a large labelling area below, ensures items can be identified quickly. The bins are available in Blue shockproof plastic and can be nested when not in use to save space.

Heights	Widths	Depths	Application	Construction	Loadings
Height (mm) **200**	Widths (mm) **280, 420**	Depths (mm) **300, 450, 600**	Environment **Hospitals, Storeroom, Workshop, Office, Warehouse** Usage **Part Picking**	**High Strength Polypropylene in Blue**	Maximum **4 kgs suspended load from shelving** *Maximum* **18kgs static load within shelving**

Shelf Bins & Additional Dividers

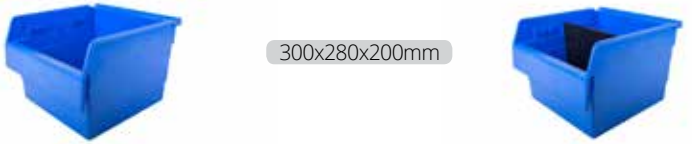

Plastic Bin Features

1. Integral back stop
2. Profiled sides for extra strength
3. Nestable design – space saving
4. Large labelling area
5. Semi-open fronted design
6. 7 divider positions in each bin
7. Dividers positively slot into the bin

Framework Benches

Type A

Framework benches provide extremely durable workstations suitable for a variety of workplaces that can be customised with suspended cabinets and rear frame system to create multi-functional work areas.

Multiplex worktop - 30mm, resin bonded, layered hardwood beech ply with cross laminated construction. A tough general duty worktop suitable for most applications.

Lino worktop - 30mm overall with a 28mm particle board core and a 2mm grey linoleum surface and a durable plastic edgebanding. An easy clean top with good surface resistance to water, oils, acids and chemicals. Ideal for office, assembly and storage areas.

- **Robust steel section framework**
- **Comprehensive self assembly instructions**

Magnetic Easy Wipe Location Markers

White magnetic location markers supplied in pre cut single sized pieces. Use a wet-wipe marker pen, write on, update and move when required.

These pre-cut markers offer a quick and easy high visibility system of identifying locations, products or stock quantity’s etc.

For Best results please use a wet wipe marker pen, the text can then be simply cleaned using a damp cloth – using permanent markers will require a strong alcohol based cleaner.

RACK ARMOUR

Manufactured from low maintenance High Density Polyethylene (HDPE), Rack Armour guards are durable and extremely effective in preventing damage to uprights.

Available in a range of striking, high visibility colours that are easily detectable. Organise your warehouse with our traffic light colour range.

Fully recyclable and non-toxic. The original Rack Armour is suitable for use in food production facilities and freezer environments up to -40°C.

- Patented design deflects and absorbs impact
- Easy to fit with no extra fixings required
- Multiple size options to ensure secure fit
- Use in temperatures as low as -40°C

ⓘ **Need help designing your layout? Please contact the sales office for more information.**

End of Aisle Double Bumper Barrier

Low maintenance High Density Polyethylene (HDPE) plastic barriers only need replacing when frequent, major impact has occurred.

Unlike metal barriers, there is minimal floor damage when impact occurs, saving maintenance costs long term. Available in a range of striking, high visibility colours that are easily detectable, preventing accidents before they happen. Fully recyclable and non-toxic. Suitable for use in food production facilities & freezer environments.

- Made from Highly durable plastic to protect end of aisle
- Flexes on impact and reforms shape
- Variety of highly visible colours available
- Use in temperatures as low as -40°C
- Colour Options: Colourfast Yellow & Grey & Safety Yellow & Grey

Workplace Projects Industrial Fit-Out

The design of a warehouse clearly has a direct effect on the efficiency of the entire business. With such a critical area of the supply chain it makes perfect sense to get expert guidance and support. We can provide advice on warehouse design inside and out, we will listen to you and what your organisation needs and supply the complete solution.

- Industrial partitions
- Kitchen and welfare facilities
- Mezzanine floors
- Storage systems
- Materials handling
- Live storage systems
- Roller and belt conveyors
- Picking and packing equipment

Book your annual Rack Inspections to keep safe & operational

Inspections

By ensuring that the racking system is in good condition, annual inspections can improve safety, productivity, and compliance, while minimizing costs and liability.

An experienced and qualified inspector will walk you around any identified situations in the report, to spend the time to assist you with the information you need to ensure your storage systems are safe and compliant to the latest health and safety legislation. This will help to reduce risk and prolong the lifespan of your racking... ultimately saving you money!

On completion of an electronic inspection from a PUWER & SEMA accredited inspector, you will have a clear & concise digital next day report, highlighting;

- Priority rated actions to SEMA's Red, Amber and Green classifications.
- Recommendations that will prolong the life of your storage equipment.
- Guidance to improve workforce safety such as housekeeping.

Book an inspection to remain compliant and to safeguard your warehouse

Training

Upskill your team to better support maintenance, safety and operations

Having the inhouse personnel with the skills to quickly spot, assess and repair your racking, can have a significant savings, improve productivity and your profitability.

Does your team understand what to look for and why?

Anything can happen to your warehouse in between annual inspections, why leave it to chance? Regular internal checks of your racking ensures that it stays safe to support your stock and remains structurally sound.

Does your team have the skills to repair and reduce racking risk?

In house repair skills means you can minimise production downtime and your repair costs long term, by addressing damage when it happens. Provide the skills and knowledge required for your team to safely carry out repairs on damaged racking systems with confidence, by trainers who are all highly experienced ex installers.

Book a course to secure your organisation against safety and operational risks
